Supporting Documents Checklist

The certified true copies of the following documents are to be submitted in support of this application, where applicable²⁰.

1.	The detailed engineering design of the renewable energy installation, including all relevant calculations to justify the installed capacity and claimed efficiencies must be made available in CD and hardcopy to be delivered to SEDA Malaysia office within 7 working days of a successful submission of FiT application;	<input type="checkbox"/>
2.	Where applicable, the report on: a) the connection confirmation check for any RE installation exceeding 72 kW up to and including 180 kW; or b) the power system study for any RE installation of 180 kW above; conducted in accordance with the Renewable Energy (Technical and Operational Requirements) Rules 2011;	<input type="checkbox"/> <input type="checkbox"/>
3.	The feed-in approval currently or previously held by the Applicant, if any;	<input type="checkbox"/>
4.	Documents proving the Applicant's ownership of the site , or other conditional or unconditional rights (e.g. letter or agreement) that the Applicant has to utilise/lease the site for a minimum period equivalent to the effective period;	<input type="checkbox"/>
5.	Applicable documents as required in column 3 of the First Schedule of the Renewable Energy (Feed-in Approval and Feed-in Tariff Rate) Rules 2011, for bonus feed-in tariff rate in addition to basic feed-in tariff rate, where the renewable energy installation has any one or more of the following criteria: i) use of gas engine with electrical efficiency of above 40%: - Relevant manufacturer's specifications as tested according to international standards by certified testing bodies as may be recognised by the Authority from time to time pursuant to guidelines.	<input type="checkbox"/>
